Priday Morning, July 1, 1859.

The morning papers of yesterday contain a somewhat lengthy report of a detail of the news by the Arabia. We have published the main features of the news, but the following condensation of the fuller report by the Milwankee Sentinel may interest some of our Regard t. J.

"The details of the Arabia's news, which will be found under our telegraph head, contain a few items of interest in regard to the war. Count Gydlai has been superceded as command er of the Austrian army, by Gen. Schlick, or account of his disastrons management at Magenta, and it was also announced that Francis Joseph was about to take command of his army in person. An Austrian report states that Garibaldi had been repulsed by Gen. Ur-

"Nanolson has determined to beriege the Anstrians in their strong fortresses, Peschiers, Mantus, Leguage and Verons, which form the colebrated historical square that has witnessed meny a bloody scene in days gone by, and now forms one of the strongest military positions in Europe. Appreciating the magnitude of this undertaking Napoleon has called for a re-inforcement of one hundred thousand men to the allied army. The Austrians in the meantime having taken up their position are said to be preparing to attack their victorious pursuers, but the impetuosity of Napoleon and Victor Emanuel will probably save them that trouble."

Newspaper Change,

A telegraph despatch from Madison, dated yesterday, furnished us by Mr. Beetle says-"The Argus and Democrat of this city has been purchased to-day by Harrison Reed of the State Journal, and the last number with the editor's valedictory will be published this evening."

The republicans in the southern tier of counties are claiming for their locality the strongest republican sentiment of any portion of the state. We fear our friends down there havn't examined the returns. We counties of Columbia, Sauk, Green Lake, Adams and Wausbara, all contiguous, claim the strongest republican vote in proportion to the number of inhabitants, of any place in Wisconsin, if not in the United States. There counties, in a poll of a trifle over 11,000 votes gave Byron Paine 5,260 majority. Had all the returns been made in it would have exceeded 5.700 majority. The counties of Rock and Walwor b, with nearly the same vote, gave but 4,500 majority. Will our friends elsewhere just bear in mind that we are "some republican" up here, and when they talk about the claims of locality for political preference, accord to us what may seem reasonable?-Portage City Re-

The suggestion of the Record should be received kindly. Strong as is the republican vote in a portion of the southern tier of counties, there is a noble band of bardworkers "up north," who are entitled to consideration. In fact a good republican of good fellows, and should be treated accordingly.

Junge Douglas' LETTER .- A despatch from Washington to the Baltimore Sun, dated the 24th, says:

"Judge Douglas stated to-day to a very prominent southern politician, that he intends to support the nominee of the Charleston convention; but that what was meant by the letter to Mr. Dorr, of Iowa, was that he will not himself consent to run upon a platform that he cannot endorse. In any event he will adhere to his party against the opposition."

Douglas is showing the white feathers just as it was expected he would. The "moral sublimity" of his position is simply other letters that purport to come from that he will not take a nomination to be besten, but will leave the barren honor to forward man, and we have every reas n to mourning friend.

The Detroit& Milwaukee Railway

In these days of railway jealousies and quarreling, it is almost impossible for those who are not well posted with respect to routes to and from the great north-west, to make a selection. Recently, however, a new route, the Detroit & Milwaukee Railway and Steamboat line has been established, which from its comfort, convenience and expedition, combined with its Cheap ness, has brought down upon it already the jealousy of the older lines from the eas: to our portion of the west. So rapidly has this route risen into public favor that old railroad "fogies" have become seriously alarmed for the prosperity of their own duty and uncomfortable routes; and they are now attempting to injure this new "Steamship and railway" by not only speaking discouragingly of the route itself, but by getting papers in their interest to write articles abusive of it, as well as of its general agents. A glance at the Chicago Times of a recent date, wherein "railway matters" are discussed, will convince the most incredulous of this fact.

The writer of this article has no pecuniary interest in any railway, nor has he any motive whatever to mislead or deceive the public. But "fair play" is a jewel, "and as one who knows" and has experienced the convenience and comforts of the line of which he writes, he deems it to be but fair that he should say a good but disinterested word in behalf of his management.-It is unquestionably one of the cheapest, most expeditious and comfortable routes to the east, while those who desire to send freight there, will consult their own inter-

est by adopting this line of transportion. Its general agents, Mr. Movious, at Buffalo and Mr. Muir, at Detroit, are extensively known as railroad men, while the names of Mr. Wilson, its general agent at Milwaukee, and Messrs. Hazelton & Co., in this city, will be sufficient in themselves to the Cap ain was called away and made an apinspire confidence in the integrity of its pointment to meet him the next day. the route itself to those who are not familiar witness away under the bed in the room .with railroad matters; at least such are wish to compare notes with them. DIABOLICAL CONSPIRACY FRUSTRATED. -The Detroit Tribune of Monday evening contains the particulars of a diabolical plan to blow up the splendid Southern railroad steamer City of Buffalo, and of the arrest of the conspirato , while attempting to carry his plan into affect. The facts briefly stated, as we take them from the Tribune, are these: - Some weeks since, while Captain Ward was at Cleveland on busi ness a man named Cooley came to him professing great friendship and denonucing the opnosition of the railroads which led to the estab lishment of a second line of boats between Buildo and Cleveland. After talking a while, he intimated that he knew of a means which would remove this opposition and give Cipt. Ward control of the route. Perceiving that the fellow was a scoundrel and avidently har bored som: mischeivous design, the Capann took him into a private room, where the villein unfolded his plan. But before compliting it,

The appointment was kept, Captain Ward azents and give a favorable impression of having taken the precaution to stow a good Cooley's plan was then unfolded in detail, and consisted in providing beavy charges of powder boat under water, connected together, and touched off with a slow fuse. He proposed to blow up both reilroad boats for \$300. He then notified the superintenof the terrible accident on the Michigan South, I dent of the Southern road, and the agent at

Upon Capt W.'s expressing some doubts as to his stilling to accomplish so great and h zirdous an undertaking, he stated that he had blown up one vessel in a similar manner, and gave the name, time

and place. The Captain then gave him \$20 with which he was to procure fif y younds of powder, and it was arranged that the City of Boffelo, which rem die in Cleveland over the Sabbath, shou'd there is no doubt but that the wretch intended to commit the diabolical deed, and that he was capable of doing it. Exhibition of the Blind.

Lappiu's Hall was well filled to witness the exhibition by the pupils of the blind institute. The interest in the exercises was sustained from the opening to the close, while the remarks interspersed by Mr. Churchman, happily illustrated the mode of teaching, and exhibited the manner in which apparently insurmoun-able difficulties in a course of instruction is orercome.

This exhibition closed the yearly term at the institute. During the year the pupils | 6600 Yds. Rich Summer | 60 Ps. FRENCH ORGANDI ROBES A Deux. Most of these afflicted children left immediately for their homes, where the endearments of the family circle will for a time take the place of the discipline of the school room and the training necessary to fit them for a useful, and we hope as a result of their inatruction, a happy life. With all the in terest inspired by such an exhibition uf their capacity for knowledge as the exercises of Wednesday evening presented, no one could witness thom, even under such favorable circumstances, without a feeling of sadness. Deprived of the faculty which Summer Valencies, yields to others their highest enjoyment, graping in darkness, and the emblem of affliction placed upon them beyond the power of concealment, these poor children appeal to the liveliest sympathies of every sensitive heart. Some ingenious keeper at Sing Sing has lately invented an iron cap for the head of the prisoner, as a panishment. It slips over the larger part of the skull, and the rim is then contracted by a screw, so that it cannot be taken off.
